

# Insulated Blank-Off Panels

## NOTES

- Aluminum Louvers:** 22-GA aluminum skins with styrofoam insulation
- Steel Louvers:** 20-GA galvanized steel skins with styrofoam insulation

Insulated blank-off panels can be used to blank off all or portions of a louver.  
 Blank-off panels can be mounted on the front or rear face of louver.  
 Customer to provide blank-off dimensions and mounting location when ordering.  
 Screens are not typically used when blank-offs are installed unless otherwise specified.
