Insulated Blank-Off Panels

NOTES

**Aluminum Louvers**: 22-GA aluminum skins with styrofoam insulation

**Steel Louvers**: 20-GA galvanized steel skins with styrofoam insulation

Insulated blank-off panels can be used to blank off all or portions of louver. Blank-off panels can be mounted on the front or rear face of louver. Customer to provide blank-off dimensions and mounting location when ordering. Screens are not typically used when blank-offs are installed unless otherwise specified.
